When activating the “small caps” option, lowercase letters will be transformed in small capitals and lining figures in oldstyle figures. You can also access the “all small caps” option on the OpenType panel that will also transform uppercase letters. The height and spacing of the punctuation is automatically adapted when you select the “all caps” or “small caps” option.

Lowercase in small caps

**Monsieur  
le Président**

**MONSIEUR  
LE PRÉSIDENT**

Case sensitive punctuation

**¿ No? (Yes)  
« Peut-être »**

**¿ NO? (YES)  
« PEUT-ÊTRE »**

An alternate slashed zero is available for all sets. The default setting for figures is the lining set. Tabular figures have an identical width and are useful for the composition of charts. You can access the others sets on the OpenType panel. Height corrected currency and mathematical symbols are automatically activated on all sets of figures.
