One magnificent evening, the 30th July (that is three weeks after our departure), the frigate was at Cope Blanc, thirty miles to leeward of the coast of Patagonia. We had crossed the tropic of Capricorn, and the Straits of Magellan opened less than seven miles to the south. Before eight days were over the Abraham Lincoln would be ploughing the water of the Pacific. Seated on the poop, Ned Land and I were talking. I naturally led up the conversation to the unicorn, and examined the various chances of success or failure of the expedition. But, seeing that Ned Land let me speak without saying a word, I pressed him more closely. “Well, Ned,” said I, “is it possible that you are not convinced of the existence of this cetacean that we are following? Have you any particular reason for being so incredulous?” He looked at me fixedly for some moments before answering, struck his broad forehead with his hand (a habit which he has). “I have no particular reason for being so incredulous?” THE HARPOONER LOOKED AT ME FIXEDLY FOR SOME MOMENTS BEFORE ANSWERING, STRUCK HIS BROAD FOREHEAD WITH HIS HAND (A HABIT WHICH HE HAS), AND SAID AT LAST, “PERHAPS I HAVE, MR. Certaines fractions existent sous la forme d'un glyphe, vous pouvez également transformer deux nombres séparés d'un slash en une fraction en utilisant l'option fraction dans l'onglet OpenType. Il est aussi possible d'accéder aux fonctions pour créer les numérateurs et les dénominateurs séparément.

Fractions

**1/2 litre de lait**  
**20/20****½ litre de lait**  
**20/20**

Numérateurs

**1234/****1234/**

Dénominateurs

**/5678****/5678**

Les fonctions exposant, indice et ordinal sont toutes accessibles via l'onglet OpenType. Les exposants servent par exemple lors de la composition d'abréviations et les indices pour des formules mathématiques ou chimiques. Les ordinaux s'utilisent pour les abréviations en espagnol comme segunda, segundo etc.
